

## **# RL Pathways Website Project**

### **## Project Overview & Development Plan**

#### **### Original Client Vision**

Rose Jean Louis wanted a professional website that would serve as the digital home for her career consulting business. The website would help students and professionals explore educational and career opportunities while providing a streamlined process for scheduling consultations and completing intake forms.

The target audience included high school students, college students, young professionals, and adults seeking career guidance or career transitions.

Key goals included:

- Establishing a professional online presence
- Showcasing career consulting services
- Providing educational video content and resources
- Allowing users to schedule consultations online
- Collecting client information through intake forms
- Building trust and credibility with prospective clients
- Creating a foundation for future business growth

#### **### Primary User Journey**

Visitor discovers website

Learns about Rose and her services

Builds trust through content, testimonials, and resources

Schedules a consultation

Completes intake form

**Becomes a client**

---

## **# Recommended Website Structure**

### **### Home**

- Hero section with clear value proposition
- Introduction to RL Pathways
- Featured services
- Testimonials
- Call-to-action to schedule a consultation

### **### About**

- Rose's background
- Professional experience
- Mission and values
- Why clients should work with her

### **### Services**

- Career coaching
- College planning
- Resume reviews
- Interview preparation
- Career transition guidance

### **### Resources**

- Career advice articles
- Educational videos
- Downloadable guides
- Frequently asked questions

### **### Book Consultation**

- Online scheduling system
- Consultation information
- Client expectations

### **### Contact**

- Contact form
- Social media links
- General inquiries

---

## **# Development Roadmap**

### **## Phase 1 — Discovery & Strategy**

#### **Objectives:**

- Confirm business goals
- Identify primary services
- Define target audience
- Review competitor websites
- Gather branding materials
- Collect content requirements

#### **Deliverables:**

- Site map
- Content outline
- User journey documentation
- Project scope

---

### **## Phase 2 — UX Planning**

#### **Objectives:**

- Define page hierarchy
- Organize website content
- Establish conversion goals
- Improve user flow

#### **Deliverables:**

- Wireframes
- Navigation structure
- Mobile-first user flow

---

### **## Phase 3 — Visual Design**

#### **Objectives:**

- Establish visual identity
- Apply brand colors and typography
- Create responsive layouts
- Design modern user interface

**Deliverables:**

- Homepage design
- Interior page designs
- Mobile layouts
- Design system

---

## **## Phase 4 — Development**

**Recommended Technology:**

- HTML
- CSS
- JavaScript

**Optional Integrations:**

- Calendly or Acuity Scheduling
- Contact forms
- Google Analytics
- Social media integration

**Development Goals:**

- Responsive design
- Fast loading performance
- Accessibility compliance
- SEO-friendly structure

---

## **## Phase 5 — Content Integration**

**Required Assets:**

- ### Written Content**
- About information

- Service descriptions
- FAQs
- Testimonials

#### **### Media Assets**

- Professional headshots
- Brand imagery
- Educational videos

#### **### Business Information**

- Contact details
- Social media profiles
- Scheduling links

---

### **## Phase 6 — Testing & Launch**

#### **Pre-Launch Checklist:**

- Mobile responsiveness testing
- Form functionality testing
- Accessibility review
- SEO optimization
- Analytics installation
- Browser compatibility testing

#### **Launch Deliverables:**

- Live website
- Domain configuration
- Search engine indexing
- Analytics dashboard setup

---

### **## Future Expansion Opportunities**

#### **Potential future enhancements include:**

- Blog and resource center
- Online courses
- Downloadable career guides
- Client portal

- Payment processing
- Email marketing integration
- Workshop registration system
- Testimonial management system

---

## **## Project Reflection**

**This project represents an evolution from selecting a website platform to creating a strategic digital experience. Rather than focusing solely on website builders, the emphasis is placed on understanding user needs, guiding visitors through a clear journey, and converting prospective clients into scheduled consultations.**

**The website should function as both a marketing tool and a business development platform, helping RL Pathways grow its client base while providing valuable career guidance resources.**
